*concise descriptive summary for the center:

Preliminary permission on establishing the “Lung Disease Research Center” (LDRC) in Ardabil University of Medical Sciences was issued by Iranian "Ministry of Health, Treatment, and Medical Education" in August 2022.

This center aims to expand research and provide appropriate health-care solutions in the field of pulmonary diseases, while also investigating the risk factors associated with respiratory disorders. LDRC benefits a high experienced researcher with different specialties, so it seeks to solve pulmonary diseases from wide view of points.

Ardabil Pulmonary Diseases Research Center has been located at Imam Khomeini Hospital since February 2022.
